KELKEN CONSTRUCTION SYSTEMS

Safety Data Sheet								
SECTION 1 - Product and	Company Id	entification	5410	Effective Date: 7/12/16				
SECTION 1 - Product and Company Identification Manufacturer: Advance Coatings Company				Emergency Phone 732-416-6730 (Kelken Construction)				
Produced for: Kelken Construction Systems			<u>Emergency mone</u>	800-424-9300 (Chemtrec 24 Hr. Emer.)				
Trade Name: KELIGROUT Quarts						- (,	
Chemical Name: Filled Unsaturated Polyester Resin			Prepared By: Chuncai Yang					
Section 2 - Hazards Identification			Danger!					
HMIS Rating:	Health - 2	Flammability - 3	3	Reactivity - 1		$\langle \cdot \rangle$	$\langle \langle \rangle \langle \rangle \rangle$	
NFPA Codes:	Health - 2	Flammability - 3	3	Reactivity - 1				
Hazard Statements:			Precautionary Statements:	ements: No Smoking				
Harmful if inhaled				Read and understand all safety precautions & special instructions				
Causes skin irritation and serious eye irritation				Use only outdoors or in well-ventilated areas and use protective				
May cause cancer and/or respiratory irritation				equipment/clothing/gloves as required & eye protection				
Prolonged/repeated exposu	re may cause	hearing damage		Do not breathe mist, vapors, spray Store in a well-ventilated place				
Harmful to aquatic life with	long lasting ef	fects		Do not eat, drink or smoke and keep away from heat/sparks/open flames				
Flammable liquid and vapor				Gound/bond containers & keep tightly closed				
				Keep cool and avoid release to the environment				
				Keep container closed and away from heat/spark/open flames/hot surfaces				
Section 3 - Composition/Inf	ormation on I	ngredients		, , , , , , ,				
Hazardous Component	· · · · · · · · · · · · · · · · · · ·			Exposure Limits		% by Wt.		
Polyester Resin		Proprietary		None assigned		28 ± 2%		
Styrene Monomer		100-42-5		50.0 ppm ACGIH TWA		18 ± 2%		
				100.0 ppm ACGIH STEL				
Pigments		Proprietary		None assigned		54 ± 2%		
Section 4 - First Aid Measures								
Inhalation: If symptomatic, move to fresh air. Get medical attention if symptoms persist.								
Expes: Immediately flush with plenty of water for at least 15 minutes. Get medical attention.								
kin: Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes.								
Get medical a	Get medical attention. Wash contaminated clothing before reuse.							
Ingestion: Call a physicia								
Never give an	ything by mou	th to an unconso	cious person.					
Additional protective Measures: First Aid Facilities: Eye bath, safety shower, washing facilitation. Advice to Physicians: None Known								
Section 5 - Fire Fighting Measures Flammable Liquid Class 1C.								
Extinguishing Media: Water spray, dry chemical, Carbon Dioxide, Foam. Protective Equipment: Wear self-contained breathing apparatus and								
protective clothing. Special Exposure Hazard: Containers can build pressure if exposed to heat or fire. The heat may cause polymerization								
which could cause violent rupture of closed drums. Vapors from the product may form explosive mixtures with air.								
Special Fire Fighting Procedures: Use water spray to keep fire-exposed containers cool.								
Section 6 - Accidental Relea	se Measures		Personal Prot	tection: Wear protective clo	thing.			
Leaks and Spills: Eliminate all ignition sources. Absorb spill with vermiculite or other inert material, then place in a container for chemical								
waste. For large spills; flush spill area with water spray. Prevent runoff from entering drains, sewers or streams.								
Section 7 - Handling and Storage								
Handling: Material is a combustible liquid; keep away from heat, open flame, oxidizers, and other ignition sources. Avoid breathing vapors.								
Use protective equipment when handling.								
Storage : Store with adequate ventilation and out of direct sunlight. Bond and ground containers of this product to prevent static sparks. Store away from oxidizing agents. Always use the oldest lot first.								
Section 8 - Exposure Controls/Personal Protection Engineering Control: Local exhaust ventilation should be used to control the emissions of air contaminants. General dilution ventilation								
may assist with the reduction of air contaminant concentrations. Respiratory Protection: If engineering controls do not maintain airborne								
	concentrations to an acceptable level, an approved respirator must be worn. Respirator Type: Organic vapor. If respirators are used, a							
concentrations to an acceptable level, an approved respirator must be worn. Respirator Type: Organic Vapor. If respirators are used, a

Safety Data Sheet

		ely Data Sh						
			Eye Protection: Wear safety glasses w/side shields					
or goggles. Ventilation Required: Good g	eneral ventilation (typically 10	air changes pe	er hour) should be used. Ventilation rates should be					
matched to conditions. Supplementary local exhaust ventilation, closed systems, or respiratory protection may be needed in special								
circumstances such as poorly ventilated spaces, evaporation from large surfaces, spraying, heating, etc.								
Section 9 - Physical and Chemical Properties								
Appearance: Viscous liquid	Odor: Styrene odor		Physical State: Liquid					
pH: Not determined	Boiling Point: 295°F		Freezing Point: Not determined					
Flash Point: 89°F TCC	Vapor Pressure: 4.50 mm Hg @ 68°F		Oxidizing Properties: Reacts with strong oxidizing agents					
Solubility in Water: Negligible	Density: 15.4 lb./gal.		Specific Gravity: 1.77 ± 0.2					
Volatile by Weight: 18%	Viscosity 15,000 cps @ 72°F		Explosion Limits: LEL 1.1% by volume UEL 6.1% by volume					
Partition Coefficient: Not Determined	Evaporation Rate: (Butyl Acet	Evaporation Rate: (Butyl Acetate = 1): Slower than Butyl Acetate						
Section 10 - Stability and Reactivity	Chemical Stability: Stable Conditions to Avoid: Heat and open flame		Avoid: Heat and open flame					
Incompatibility with other materials: Avo	id oxidizing agents		Hazardous Polymerization: May occur					
Hazardous Decomposition Products: Carbon Dioxide, Carbon Monoxide and Organic Acids								
Section 11 - Toxicological Information								
Material LD50.RAT.Oral	Eye Effects: Mildly irritating, Skin Effects: Mildly irritating, Ingestion Effects: May cause nausea							
Styrene >5g/kg								
Signs and Symptoms of Chronic Overexposure: No known chronic health effects have been observed w/normal use of this product.								
Potential Health Effects/Health Hazard Id	lentification							
Acute Exposure: Eye - causes irritation, Skin - causes irritation, Ingestion - may cause irritation to the gastrointestinal track,								
Inhalation - mucous membrane irritant.								
Chronic Exposure: Repeated exposure to high concentrations of styrene vapor may cause nausea, loss of appetite, CNS depression, liver								
and kidney damage.								
Other Hazards: Known Synergist - none known, Explosion Hazard - empty containers are dangerous; they still may contain flammable								
vapors. Keep away from heat, sparks, or flames. Fire Hazard - classified as flammable liquid. Corrosion Hazard - not corrosive.								
Ecotoxicity: The styrene in this product is	expected to be toxic to aquati	c organisms.						
Persistence: The organic portion of this product is expected to biodegrade readily.								
Section 13 - Disposal Considerations								
Disposal: Discharge, treatment, or disposal may be subject to national, state and local laws. Incinerate. Since emptied containers retain								
product residue, follow label warnings ev	en after container is emptied.							
Section 14 - Transport Information								
DOT Shipping Information: Single unit: consumer commodity, ORM-D								
Bulk, UN1866, resin solution, 3 PG III								
IATA/ICAO Shipping Name:								
Section 15 - Regulatory Information								
U.S. Federal Regulations: Toxic substances control act (TSCA) Inventory - Yes								
US DOT Regulations: Hazard class: Adhesive containing a flammable liquid, ID Number: UN 1866, Packing Grp: III								
Section 16. Other Information								
Workers using this product should read and understand this SDS and be trained in the proper use of this material. This SDS has been								
prepared in accordance with the federal OSHA Hazard Communication Standard.								
Information herein is accurate to the best of our knowledge. Suggestions are made without warranty or guarantee of results. Before using, the user should								
determine the suitability of the products for his intended use, and the user assumes the risk and liability in connection therewith. We do not suggest violation								
of any existing patents or give permission to practice any patented invention without license.								
or any existing patents of and permission to practice any patented invention without itemse.
