Fire-fighting measures Suitable extinguishing media Alcohol resistant foam. Water fog. Dry chemical powder. Carbon dioxide (CO2). Unsuitable extinguishing Do not use water jet as an extinguisher, as this will spread the fire. media Specific hazards arising from During fire, gases hazardous to health may be formed. the chemical Special protective equipment Self-contained breathing apparatus and full protective clothing must be worn in case of fire. and precautions for firefighters In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do **Fire-fighting** so without risk. Use water spray to cool unopened containers. equipment/instructions General fire hazards No unusual fire or explosion hazards noted. 6. Accidental release measures Personal precautions, Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation.

Local authorities should be advised if significant spillages cannot be contained. protective equipment and emergency procedures Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is Methods and materials for containment and cleaning up possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills in original containers for re-use. For waste disposal, see Section 13 of the SDS. Environmental manager must be informed of all major releases. **Environmental precautions** 7.
