

# SAFETY DATA SHEET

#### 1. Identification

Product identifier Polymeric Coated Steel Products

Other means of identification

SDS number 9

**Product code** 1, 18, 38, 101, 102, 103, 120, 129, 159, 168, 601, 668, 722, 764, 782, 909, 968.

Recommended use Industrial use.
Recommended restrictions None known.

Manufacturer / Importer / Supplier / Distributor information

Company name Contech Engineered Solutions, LLC

Address 9025 Centre Pointe Drive West Chester, Ohio 45069, United States

Contact personDan MoodyTelephone number513-645-7055

E-mail dmoody@conteches.com

**Emergency telephone** 

number

1-800-255-3924

## 2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Hazard symbolNone.Signal wordNone.Hazard statementNone.

**Precautionary statement** 

**Prevention** Observe good industrial hygiene practices.

**Response** Wash hands after handling.

**Storage** Store away from incompatible materials.

**Disposal** Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise

classified (HNOC)

Not classified.

### **Supplemental information**

Not applicable.

### 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	CAS number	%
Iron	7439-89-6	95
Zinc	7440-66-6	4

**Composition comments** All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in

percent by volume.

4. First-aid measures

**Inhalation** If dust from the material is inhaled, remove the affected person immediately to fresh air. Call a

physician if symptoms develop or persist.

**Skin contact**Contact with dust: Wash off with soap and water. Get medical attention if irritation develops and

persists. Cuts or abrasions should be treated promptly with thorough cleansing of the affected

area.

**Eye contact**Dust in the eyes: Do not rub eyes. Rinse with water. Remove contact lenses, if present and easy to

do. Get medical attention if irritation develops and persists.

Polymeric Coated Steel Products SDS US

Ingestion Not likely, due to the form of the product.

Dust: Rinse mouth thoroughly. Do not induce vomiting without advice from poison control center.

Get medical attention if symptoms occur.

Special powder against metal fires. Dry sand.

Do not use halogenated extinguishing agents or foam.

Most important

symptoms/effects, acute and

delayed

Contact with dust: Irritation of eyes and mucous membranes. Irritation of nose and throat.

Indication of immediate medical attention and special

treatment needed

Treat symptomatically.

**General information** 

Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

media

Specific hazards arising from

the chemical

Dust may form explosive mixture with air. Fire or high temperatures create: Metal oxides.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire-fighting

equipment/instructions

Move container from fire area if it can be done without risk.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid generation and spreading of dust. Ensure adequate ventilation. Avoid inhalation of dust and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet.

Methods and materials for containment and cleaning up

The product is immiscible with water and will sediment in water systems. Allow spilled material to solidify and scrape up with shovels into a suitable container for recycle or disposal. Collect dust or particulates using a vacuum cleaner with a HEPA filter.

**Environmental precautions** 

Prevent further leakage or spillage if safe to do so.

# 7. Handling and storage

Precautions for safe handling

Provide adequate ventilation. Avoid contact with sharp edges and hot surfaces. Avoid generation and spreading of dust. Avoid inhalation of dust and contact with skin and eyes. Avoid contact with molten material. Avoid inhalation of fumes from molten product. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Keep dry. Store away from incompatible materials.

## 8. Exposure controls/personal protection

Occupational exposure limits

No exposure limits noted for ingredient(s).

**Biological limit values** 

Appropriate engineering

controls

No biological exposure limits noted for the ingredient(s). Minimize dust generation and accumulation. Ventilate as needed to control airborne dust. Use explosion-proof ventilation equipment if airborne dust levels are high. The risk of inhalation of dust

must be minimized as much as possible.

#### Individual protection measures, such as personal protective equipment

Eye/face protection

Wear dust-resistant safety goggles where there is danger of eye contact.

Skin protection

**Hand protection** 

Wear suitable protective gloves to prevent cuts and abrasions. When material is heated, wear

gloves to protect against thermal burns. Suitable gloves can be recommended by the glove

supplier.

Other

Wear suitable protective clothing.

Respiratory protection

Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Seek advice from local supervisor.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

## 9. Physical and chemical properties

**Appearance** 

**Physical state** Solid.

Polymeric Coated Steel Products SDS US Form Pipe. Sheets. Strips

Color Black.
Odor Odorless.
Odor threshold Not applicable.

PH Not applicable.
Melting point/freezing point Not available.
Initial boiling point and boiling Not available.

range

Flash point Not available.

Evaporation rate Not applicable.

Flammability (solid, gas) Not available.

Upper/lower flammability or explosive limits

Flammability limit - lower

(%)

Not available.

Flammability limit - upper

(%)

Not available.

Explosive limit - lower (%) Not available.

Explosive limit - upper (%) Not available.

Vapor pressure Not applicable.

Vapor density Not applicable.

Relative density 8

Solubility(ies) Insoluble in water.

Partition coefficient Not applicable.

(n-octanol/water)

Auto-ignition temperature Not available.

Decomposition temperature Not available.

Viscosity Not applicable.

# 10. Stability and reactivity

**Reactivity** The product is stable and non reactive under normal conditions of use, storage and transport.

**Chemical stability** Massive metal is stable under normal conditions of use, storage and transport.

Possibility of hazardous

reactions

Hazardous polymerization does not occur. Contact with acid liberates flammable gas.

**Conditions to avoid**Contact with acids. Contact with incompatible materials.

**Incompatible materials** Strong oxidizing agents. Strong mineral acids.

Hazardous decomposition

products

Metal oxides. Hydrogen gas.

### 11. Toxicological information

# Information on likely routes of exposure

**Ingestion** Not relevant, due to the form of the product in its manufactured and shipped state.

**Inhalation** Dust and fumes generated from the material can enter the body by inhalation. Dust may irritate

respiratory system. Inhalation of powder or fumes may cause metal fume fever.

**Skin contact** Under normal conditions of intended use, this material does not pose a risk to health. Dust may

irritate skin.

**Eye contact** Dust may irritate the eyes.

Symptoms related to the physical, chemical and toxicological characteristics

Dust: Irritation of eyes and mucous membranes. Irritation of nose and throat.

#### Information on toxicological effects

**Acute toxicity** Inhalation of powder or fumes may cause metal fume fever.

Polymeric Coated Steel Products SDS US

**Test Results** Components **Species** 

Iron (CAS 7439-89-6)

Acute

Oral

LD50 Rat 30 g/kg

Skin corrosion/irritation

May cause irritation through mechanical abrasion.

May cause irritation through mechanical abrasion.

Serious eye damage/eye Respiratory sensitization

irritation

Not classified.

Skin sensitization

Not a skin sensitizer.

Germ cell mutagenicity Based on available data, the classification criteria are not met. Based on available data, the classification criteria are not met. Carcinogenicity Reproductive toxicity Based on available data, the classification criteria are not met. Based on available data, the classification criteria are not met.

Specific target organ toxicity -

single exposure

Specific target organ toxicity -

repeated exposure

Based on available data, the classification criteria are not met.

**Aspiration hazard** Not classified.

**Chronic effects** Chronic inhalation of high concentrations of iron oxide fumes or dust may lead to benign

pneumoconiosis (siderosis). May cause damage to the liver.

**Further information** Heating above the melting point releases metallic oxides which may cause metal fume fever by

inhalation. The symptoms are shivering, fever, malaise and muscular pain.

## 12. Ecological information

**Ecotoxicity** The product is not classified as environmentally hazardous. However, this does not exclude the

possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components **Species Test Results** Iron (CAS 7439-89-6) Aquatic Fish LC50 Channel catfish (Ictalurus punctatus) > 500 mg/l, 96 hours Zinc (CAS 7440-66-6) Aquatic Fish LC50 Rainbow trout, donaldson trout 0.24 mg/l, 96 hours

(Oncorhynchus mykiss)

Persistence and degradability The product is not biodegradable. Bioaccumulative potential The product is not bioaccumulating.

Mobility in soil No data available. Mobility in general No data available. Other adverse effects No data available.

13. Disposal considerations

**Disposal instructions** Dispose of waste and residues in accordance with local authority requirements.

Hazardous waste code Not regulated.

Waste from residues / unused

products

Dispose of in accordance with local regulations.

Contaminated packaging No special precautions.

### 14. Transport information

DOT

Not regulated as a hazardous material by DOT.

**IATA** 

Not regulated as a dangerous good.

**IMDG** 

Not regulated as a dangerous good.

Transport in bulk according to Annex II of MARPOL 73/78 and

Not applicable.
